

## Greetings Fellow Republicans!

We are on the cusp of the 2024 Presidential election, and Nevada will once again play a decisive role in determining the next President of the United States. And the unsung heroes of the process are our Central Committee members who execute our caucus and ensure every Republican voter has a chance to meet and question the candidates seeking their vote.

I'm looking forward to seeing each one of you in Winnemucca as we prepare for 2024. As part of our commitment to invest in our counties, we've added two important trainings for county chairs on September 22 to review the caucus process and federal election compliance.

For some of you newer to Nevada, you may be asking, 'Why a caucus?'. We have a long tradition of caucusing in Nevada – also known as a meeting among neighbors. The reason we are committed to caucusing are the same reasons you came forward to speak out against the irregularities and unexplainables seen in the 2020 election. Nevada is currently missing Voter ID, transparent tabulation in elections, precinct-based voting, and we see our streets and trash cans flooded with unsolicited mail in ballots. A caucus has none of those issues because it is limited to registered Republicans, who cast their vote by precinct, show ID, vote on paper ballots, and can watch results being tabulated in the open. I will NEVER give up the fight for free and fair elections.

The Democrats in the Legislature chose to block these common sense reforms proposed by Governor Lombardo this past session. While we are laser focused on recruiting for 2024 to take back the Assembly to give Governor Lombardo more support, we also can ensure clean, fair, transparent elections for President, as that is entirely the purview of the Nevada Republican Central Committee – not the corrupt election departments in our most populous counties. It takes all of us – unified – to ensure that we enact election reform everywhere we can. Clean elections start with us.

God bless you and see you in Winnemucca.

**Chairman Michael J. McDonald**
