

MONEY FOR VOTES - NATIONWIDE

It has come to our attention through tips from members of the public who were concerned about bribery that several organizations appear to have worked together to offer to make expenditures (in the form of cash cards ranging from \$25-\$1000, \$25-\$100 gas cards, televisions [e.g. 65" Samsung], new laptops, iPads, Bose stereo speakers, cookware, clothing and many other items of value) in what seems to be a coordinated effort to target specific groups to incentivize them to vote. We also found a few additional groups who appear to have acted similarly and are also included here.

In addition, at least some of the leaders of these groups appear to be partisan in their support of candidates while representing their official organizations. The outward support includes postings to their organizations' official social media pages in the form of images and videos. From the various social media pages, we found additional links and followed those links to create this document.

We are against expenditures, or offers of things of value to any voter from any person or group to incentivize him or her to vote. Given the past history of buying votes, "walking around" money and other shameful historic practices, we feel that this needs to be stopped and the current actors investigated and prosecuted, if the allegations are found to be true, to prevent future elections from becoming merely wholesale vote purchasing operations throughout the country.

Our concern is firmly planted with those who created, funded, and propagated this enterprise.

This report contains some (but by no means all) of the links, images and prizes *offered* by several organizations *and accepted* by voters. We offer these examples, with links to videos that have been recorded and stored for you to reference. As of 11/19/20, the videos and links were still live and open to the general public. As of 12/5/2020, many of them still are and one was added last night.

In addition, we continue to receive information about other groups who have taken similar actions. We believe that this multi-state coordinated effort is not limited to the entities listed here, but since many entities have 'private' facebook pages we could not access them and see if similar actions were encouraged by them, as well. We urge you to investigate this completely throughout the country.

We also encourage you to look at conferences over the past few years where this vote project was listed as a major item for discussion. We do not have access to the PowerPoints and other materials that could aid in discovering how broadly this was distributed and who was involved in the creation of the enterprise. As you will see, in the several states that have been located in which this occurred, there are striking similarities in the prizes, administration and advertising as well as the constant assistance of the "Native Vote Project" and apparently the NAIC, in at least a tangential fashion.

Additional points to consider are that some of these individuals in the various videos appear to be offering these items of value from within official buildings, in their official capacity, using official social media sites, and possibly using equipment and/or buildings paid for, at least in part, by federal tax dollars. There also is concern that in one video (4), the PIO thanks the local county (Washoe) for specific assistance, which could open up additional issues with another governmental entity that may have encouraged, assisted or promoted this apparently illegal enterprise.

18 U.S. Code § 597. Expenditures to influence voting

Whoever makes or offers to make an expenditure to any person, either to vote or withhold his vote, or to vote for or against any candidate; and

Whoever solicits, accepts, or receives any such expenditure in consideration of his vote or the withholding of his vote—

Shall be fined under this title or imprisoned not more than one year, or both; and if the violation was willful, shall be fined under this title or imprisoned not more than two years, or both.

52 USC 10307: Prohibited acts

(c) False information in registering or voting; penalties

Whoever knowingly or willfully gives false information as to his name, address or period of residence in the voting district for the purpose of establishing his eligibility to register or vote, or conspires with another individual for the purpose of encouraging his false registration to vote or illegal voting, ***or pays or offers to pay or accepts payment either for registration to vote or for voting shall be fined not more than \$10,000 or imprisoned not more than five years, or both: Provided, however,*** That this provision shall be applicable only to general, special, or primary elections held solely or in part for the purpose of selecting or electing any candidate for the office of President, Vice President, presidential elector, Member of the United States Senate, Member of the United States House of Representatives, Delegate from the District of Columbia, Guam, or the Virgin Islands, or Resident Commissioner of the Commonwealth of Puerto Rico.

ABOUT THE NIC

The NEVADA INDIAN COMMISSION (NIC) is a State agency created by statute in 1965 to “study matters affecting the social and economic welfare and well-being of American Indians residing in Nevada, including, but not limited to, matters and problems relating to Indian affairs and to federal and state control, responsibility, policy, and operations affecting such Indians.” The Indian Commission was originally established to be a mediator for tribal-state relations and the entity whereby tribal concerns and issues affecting Native American Indians could be directly addressed with the Governor.

Commission activities are aimed at developing and improving cooperation and communications between the Tribes, State, local governments, and related public agencies with the purpose of improving, education, employment, health, well-being and socio-economic status of Nevada’s American Indian citizens and enhancing tribal sovereignty, economic opportunities and community development.

The Commission effectively serves as a liaison between the State and the 20 federally recognized tribes comprised of 27 tribal communities. The Commission has assisted State agencies and Tribes on issues affecting Nevada’s American Indian constituency and serves as a forum in which Indian needs and issues are considered. The Commission is a conduit by which concerns involving Native American Indians or Tribal interests are channeled through the appropriate network and serves as the point of access for Tribes to find out about state government programs and policies.

I'm parked in front of the Owyhee Post Office if anyone wants to swing by for a \$25 gas card to go vote in Elko (NV residents) or Murphy (ID residents).

Edit: If you already voted, please come by to get some Star Village whole bean coffee, a Paiute-owned business out of Reno.

They had 'swag' and we were given more buttons, several large flags, etc. Campaign Bus was on its way to the Walker River Paiute Reservation in Schurz, to talk to Tribal Chair, Amber Torres. 27:20 - "FOX News had an article against the tribe, I think, on some of our giveaways and things like this when we were getting out the vote, and this became a national issue about all tribes even though our tribe gets caught in the spotlight..."

28:34 "There was a lot of coverage about the native vote in Nevada because the margin was 38,000 of what Biden won by, a percentage of that was probably Native American votes. So we came under a bit of scrutiny from FOX News last night".

We met with some of our lobbyists, George Waters in DC, last night, and we met with the Native American Rights Fund, which is helping with the Native Vote-- I think the Native Vote Project was listed in the lawsuit as far as the Trump Administration, or the people that filed the lawsuit mentioned them in there."

29:57 Meeting with our attorneys and the Indian Commission, and also with Strategys 360, who are our lobbyists at the State Level, and George Watters at the Federal level, it was decided that we would not respond to FOX News.

30:22 - Even if you would offer a legitimate explanation as to the tribe's position on these things, they would just argue with you. They would never be convinced otherwise, so there would be no use in doing that. [*Quid pro quo expenditures to entice voting has no legitimate explanation.*]

30:37 Reads prepared statement that was not released to the public.

Native american communities have been excluded from our democracy...

31:00 We aren't answering to FOX News, but that would be our position on any statement we would make.

32:10 Fortunately they tried to go after the Native American vote, and all across the nation, tribes were doing pretty much the same thing as Reno Sparks to get the vote out....

32:48 “ Because they’ve come against our tribe, I think the next time we have an election, we probably won’t even need to do any incentives.. I think once you come against Indian Tribes, I would say that that motivates them and you don’t need incentives to get people to vote. You attack them and they are going to come out and vote on their own without incentives to vote, or whatever.” [He appears to tacitly admit to the incentives, with a full knowledge of the leadership?]

34:20 - As far as when they try to call us and ask us for explanations, the current president Trump never gives an explanation for anything he does that’s illegal. All he says is that it’s fake news. I guess the tribes can say the same thing at the allegations against them and say, “Trump’s just making a bunch of fake news against tribes.” You come with that position, but we thought it would be better to let it lie. We prevailed in Nevada because of the Native vote.

34:55 “The next time we are going to come out even stronger than this year, I guarantee you that. I mean they want to come against tribes, go ahead and do it. We will come out against you without incentives next time and we will be a force in the state of Nevada and across this country to win this election the next time, too, even more so.

Closer inspection shows they may have one of their early free gear flyers on the table inside this precinct.

A screenshot of a Facebook post from the "Nevada Native Vote Project". The post is dated "October 27" and includes a globe icon. Below the header, there is a white notification box with a blue Facebook 'f' icon on the left, a close button (an 'X' in a circle) on the right, and the text "See the results and other info about the 2020 US Election." followed by a blue link "See Election Results". Below the notification box, the post's interaction bar shows "Like", "Comment", and "Share" options with their respective icons. Underneath this is a text input field with the placeholder "Write a comment..." and a profile picture icon on the left. To the right of the input field are three icons: a smiley face, a GIF icon, and a sticker icon. At the bottom of the input area, the text "Press Enter to post." is visible. The top of the screen shows the standard Facebook navigation bar with icons for adding content, messaging, notifications (with a red badge showing '3'), and the user's profile.

C. Washington State Elections Partnership with Native Vote Project:

Washington State Elections has been working with tribal leaders supporting events for nonprofits such as the Chief Seattle Club, which hosted a Get Out the Vote event. Partnerships have been built with the Native Vote Project with which Elections worked to design and produce outreach swag. Elections attended the Paddle to Lummi canoe journey event and contacted thousands of tribal members. An estimated 10,000 were in attendance. New legislation provided an opportunity for Elections to begin collaboration with the Confederated Tribes of the Colville Reservation to prepare for digital signatures for tribal members who register to vote electronically.

2. Election Protection.

It is critical for voters to understand their rights, especially for those who do not actively participate in the political process. In collaboration with Election Protection coordinators, Native Vote ensures that every qualified voter has the opportunity to cast a ballot on Election Day. NCAI works with Native lawyers locally and nationally to assist with the Election Protection component of this campaign. In addition, NCAI is planning to distribute materials to assist all Native Americans in knowing their voting rights. This applies especially in response to new voter identification laws.

About Native Vote

Native Vote is a non-partisan initiative. All Native Vote activities will be conducted in a nonpartisan manner in compliance with IRS rules and regulations and will not constitute prohibited political activity. We do not endorse any candidate for office or support any partisan statements or endorsements expressed by members of NativeVote.org.

1. Voter Registration and Get-Out-The-Native-Vote (GOTNV).

NCAI recognizes that a strong grassroots effort is needed; and encourages all tribes, regional, and inter-tribal organizations to have a Native Vote coordinator. There is a need to get the community mobilized early, starting with registration, as Native Americans are unregistered at higher rates than other communities. To mobilize and assist tribes with the upcoming elections, Native Vote is providing toolkits, updating the Native Vote webpage, distributing e-newsletters and promotional items, creating Public Service Announcements (PSAs), and hosting telephone conferences, webinars, and trainings.

2. Election Protection.

It is critical for voters to understand their rights, especially for those who do not actively participate in the political process. In collaboration with Election Protection coordinators, Native Vote ensures that every qualified voter has the opportunity to cast a ballot on Election Day. NCAI works with Native lawyers locally and nationally to assist with the Election Protection component of this campaign. In addition, NCAI is planning to distribute materials to assist all Native Americans in knowing their voting rights. This applies especially in response to new voter identification laws.

3. Education.

This strategy is comprised of a three pieces; 1) Assisting Native voters to be educated on the candidates and ballot measures, 2) Educating the candidates on the issues Indian Country cares about and encourage them to develop Native policy platforms, and 3) Encouraging more Native people to run for offices. Native Vote will be preparing materials to aid in this effort, working with regional organizations and other non-profits to increase voter awareness and education efforts.

4. Data Collection.

Measuring the Impact of Native Vote. Data on voter registration and voter turnout for American Indian and Alaska Native people has historically been complex and incomplete. During the 2012 election NCAI attempted to measure data on Native voter registration and voting turnout, and uncovered a host of methodological issues. It is NCAI's intention for the 2014 cycle to gather ideas on what we can accurately collect data on and what sources are available to Indian Country. We will share data collection and data tools with tribal leaders to encourage them to utilize these methods. Understanding the voting patterns of Native people is key to understanding the impact of Native Vote and better streamlining future efforts.

January 15, 2020

To the organizers and attendees of the Four Directions and Nevada Tribes Native American Presidential Forum,

I'm sorry I can't be with you today, but I am humbled to extend my well-wishes as you gather to discuss the important issues facing millions of Native American voters and their families. At a time when our nation is facing unprecedented challenges, your voices and your leadership are essential in our pursuit to get this country back on track.

I am running for president to restore the soul of the nation and to expand the promise of America to all who inhabit its shores and I promise you, if elected, our Native communities will have a friend, a partner, and an advocate in the White House.

We have a lot of work ahead of us, but I know we're up to the task. I know what this country is capable of when we work together. My prayer for you, and for us all, is that in these moments when we must decide who we are and what we stand for, we will remember the strength and fortitude of communities like yours. The progress we've made on Indian Country's most urgent issues is because of all of you. You've demanded attention. You've fought for solutions and changes to the law, and you continue to fight for the authority to ensure justice and fairness for everyone in your nations. I am grateful for and inspired by your courage, and I look forward to working with you to make real our vision for an America that guarantees the rights, freedoms, and dignity of all people.

Sincerely,

A handwritten signature in black ink, appearing to read "Joe Biden". The signature is written over a horizontal line that extends across the page.

IT'S OFFICIAL, WE DID IT! Joe Biden and Kamala Harris are the next President and Vice President of The United States!

We've fought tirelessly for four years and it has paid off. Young Americans cast more ballots in this election than ever before, supporting the Biden-Harris ticket in overwhelming numbers and electing the first woman of color as vice president. There's still work to be done, but for right now, let's revel in this victory and the power of the #youthvote!
